Statement by the Director

Mr. Chairman, before we get into our budget matters, I want to say that your remarks which appeared in the Congressional Record of 26 March were indeed very heartwarming to me personally. More importantly, however, your statements about the personnel of the Agency and their dedication, integrity, and effectiveness have provided a tremendous boost to the morale of our people. Your expression of appreciation and warm regard for the people who make up the Agency is a continuing source of strength. Mr. Chairman, on behalf of my colleagues and employees of the Agency, I express my sincere appreciation for your statement.
